### Okay, now it's time to move to Days 4 through to 10.

You will now be eating one protein portion and one carb portion at each meal. A portion of (cooked) carbs is just smaller than the size of your clenched fist (handful) – this can be 2-3 different carbs measuring altogether the size of your fist.

I have split your carbs into 2 categories Colour Carbs (CC) and Energy Carbs (EC) - see lists for food options. Always have at least one or two Colour Carbs as vegetables rather than fruits.

**Important Points:** You may substitute a protein shake for any meal if you prefer. Each shake is one protein portion. You can also have a protein shake after a workout – max x2 shakes per day. Use water for your shakes, filtered if possible. Likewise you do not have to have a shake, except on your cleanse days! Also you can have a max of x3 green teas per day and/or x1 solstic slim.
